LIQUOR LICENSE BAR TO POOL HALL PERMIT

ATTY. GEN. HOLDS THAT LICENSE
CANNOT ISSUE WHERE BOOZE
SALE IS PROVEN

Oklahoma City, Okla., June 25.—The act of the recent legislature that provides that a person "who has held a federal liquor license" may not be licensed to run a pool room means that a person who has held such liquor license during the year preceding-making application for a pool hall license or now holds such, may not be licensed. This is the gist of opinions held by Assistant Attorney General R. E. Wood in answer to inquiries by F. M. Gustin, judge of Cherokee county, and also to Gus Hadwiger, county judge of Woodward county. The legislature probably meant to forever debar any persons who have sold liquor under a federal license from running a pool hall in Oklahoma, but the attorney general's office makes a more liberal construction of the act.

The attorney general's office has also held, with reference to this new law, that a person who takes out a license to run a pool hall may hire a man to run it for him under certain circumstances, but that the arrangement must not be a subterfuge to permit one otherwise ineligible to secure license to get into the business.

LINCOLN GIRL GOES TO ALTAR SECOND TIME

MARRIAGE OF MRS. BESSIE
BECKWITH RECALLS A
SHATTERED ROMANCE

Manchester, Vt., June 25.—Mrs. Jessie Lincoln Beckwith, daughter of Robert Todd Lincoln of Chicago, and only living grandchild of the late President Abraham Lincoln, was married at the summer home of her parents here to Frank Edward Johnson of Norwich, Conn.

Only the immediate members of the family witnessed the ceremony, which was performed by the Rev. Sidney Kingman Perkins. Mr. Johnson is a well known geographer and is connected with the National Geographic society of Washington.

Mrs. Johnson's new union is much different from the one formed by her against the wishes of her parents in 1897. In those days Miss Jessie Lincoln, a society belle, was visiting at the home of her grandfather, Justice Harlan, when she met Warren W. Beckwith, who was playing right half back on the Iowa Wesleyan football team.

Miss Lincoln watched him, fell under the spell of her worship at college games, and love developed, and a speedy courtship was carried on, despite the efforts of the Lincoln relatives to prevent it. An elopement followed, and the bride's father tried to place Beckwith in a responsible position with the Pullman company in Chicago.

The young husband, however, soon returned to the home of his father, Capt. W. Beckwith, at Mount Pleasant, and later became a professional baseball player in minor leagues. Then he entered the Spanish-American war as a volunteer. A daughter was born to the couple, the only great granddaughter of Lincoln.

By this time the love cooled and separation followed, a divorce not being obtained, however, until 1906 on unproved charges of desertion made by the husband. At last accounts Beckwith was a brakeman on the Burlington railroad and was living at Creston, Ia.

MURDER TRIAL COSTS MONROE HIS FORTUNE

LINDSAY MERCHANT IS SAT-
ISFIED, HOWEVER, WITH
VERDICT OF NOT GUILTY

Oklahoma City, Okla., June 25.—After deliberating since 8 o'clock Wednesday night, the jury in the trial of D. V. Monroe on a charge of murdering Marguerite Ellis in a resort last December 28, returned a verdict yesterday evening, finding Monroe not guilty.

It was learned that the jury stood nine for acquittal all day until the final vote.

As the verdict was announced Monroe for the first time broke down. With his left hand over his eyes he used his right to shake hands with each juror in turn.

He was accompanied by many friends as he came to the court house to hear his fate.

The trial has been in progress for the last ten days. Because of the sensational features surrounding the case the location of the tragedy and the prominence of the defendant each session of court taxed the capacity of the court room. Monroe's defense was that he shot at another inmate of the establishment, but at the moment of firing the Ellis girl grappled with him. He maintained he was seeking to compel the return of a large amount of money which had been stolen from him.
